Workshops
29 November 2025

**CPD
HOURS**

Accredited By Egyptian Health council.

Themes

- **Foundations of Precision Medicine**
 - The role of precision medicine in cancer diagnosis and treatment “Integrated oncology- pathology program: case scenarios and panel discussions”
- **Sessions (Breast Cancer- Endometrial Cancer- prostatic cancer- lung cancer- CNS tumors- Soft tissue tumors- lymphoma)**
- **Clinical integrated applications of precision medicine**
- **Precision medicine in non-oncology areas (cardiovascular diseases, rheumatology, endocrine, nephropathy, psychiatry, pediatrics)**
- **Stem cells and regenerative medicine**
- **Translational Challenges and Clinical Implementation**
- **Applications of AI in supporting personalized clinical decisions**

Workshops

- Applications and interpretation of markers related to personalized treatment (updates in immunohistochemistry and molecular diagnostic tools in precision medicine in Egypt)
- Application of precision nutrition in chronic diseases (Cancer, Obesity, Atherosclerosis, Diabetes)
- SNPs as genetic variants in personalized medicine
